BEAC SEES A MIXED ECONOMIC OUTLOOK FOR 2023

The Bank of Central African States has released a report presenting its overall economic outlook for 2023. The assessment, based on three key macroeconomic indicators: foreign exchange reserves, inflation, and growth, was made public following the 3rd 2023 meeting of its Monetary Policy Committee (MPC) held on September 25 in Douala.

For the first indicator, Beac forecasts it to go up by 14.6%, reaching CFA7,850.8 billion by the end of 2023.

AIRLINES SPEND LONGER FLIGHT TIME ACROSS AFRICA WITH CLOSURE OF NIGER'S AIRSPACE

Flights to African Destinations and across the continent now take longer time as Niger Republic closed its airspace. According to flight tracking service provider, FlightRadar24, the closure of Niger's airspace dramatically widens the area over which most commercial flights between Europe and southern Africa cannot fly, demanding that flights must take a detour of sorts around Libya and Sudan.
